Your Complete Solution

Your practice has many different moving parts - scheduling, patient care, billing, and follow-ups. Your software should be just as dynamic as your many office responsibilities. AltaPoint is your complete software solution with Billing, Scheduling, comprehensive Electronic Healthcare documentation, Prescription Management, Patient Image utilities, and more. No need for the headache of trying to merge multiple systems to get through your daily activities. AltaPoint is all you need.

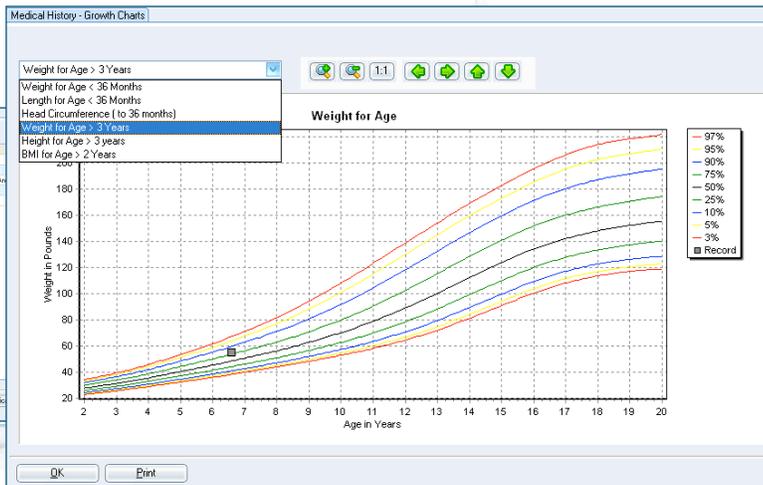

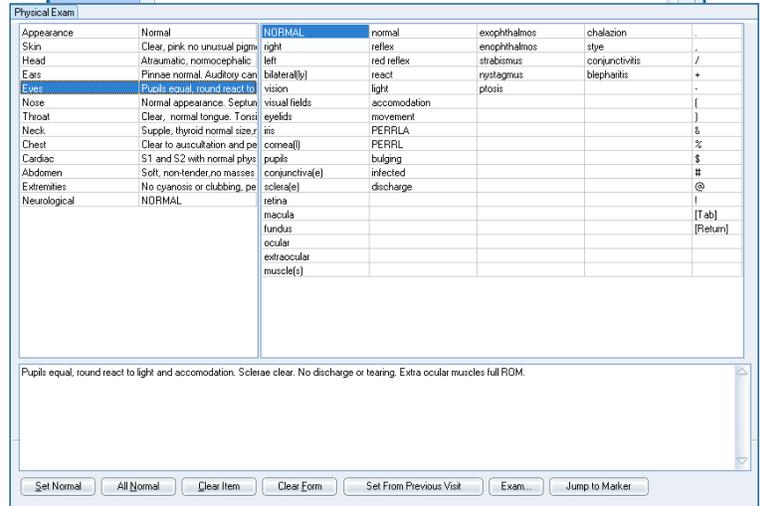

Helping You Achieve Meaningful Use

AltaPoint EHR V11 is a fully ONC-ATCB certified system that has the required tools to help you meet the meaningful use guidelines set forth by the government - all in one user-friendly system.

Integrated Electronic Healthcare Records

AltaPoint puts comprehensive healthcare charting at your fingertips with: family, social and medical histories, immunizations, prescription management, growth charts, allergy and problem lists, reminders, procedure and treatment plan information, x-ray images *and more*.

Drastically reduce your charting and documentation time and improve your patient care. AltaPoint's easy-to-use system lets you create unlimited exam templates that are fine-tuned to your specific practice, patients, specialty training and personal preferences. Chart your visit and send the encounter information directly to the billing system. Reduce the redundancy of tasks within your medical and billing team. Billing records are automatically created from each patient encounter. Attach word processing documents, spreadsheets, images, voice files, video files and other documents to a patient's record.

Need help getting started?

An AltaPoint Sales Representative or a Certified AltaPoint Reseller can help create EHR templates based on your current paper exam sheets!

AltaPoint E-Rx

AltaPoint E-Prescribe* is available to V11 EHR prescribers. Be ahead of the game and take advantage of the Medicare reimbursement today with our SureScript qualified E-Prescribe solution! Send prescriptions electronically to participating pharmacies, check for drug interactions, benefit from advanced drug look-up databases and more.
**monthly subscription required*

“Beginning with the 2010 eRx Incentive Program, a group practice may also potentially qualify to earn an eRx incentive payment equal to 2% of the group practice's total estimated Medicare Part B Physician Fee Schedule (PFS) allowed charges for covered professional services furnished during the 2010 eRx reporting year based on the group practice meeting the criteria for successful electronic prescriber specified by CMS.”
<https://www.cms.gov/ERXIncentive/>

AltaPoint E-Rx Subscription Includes:

Allergy and drug review from First Data Bank. The First Data Bank is the industry's leading provider of drug databases with context-relevant, integrated drug information.

Pregnancy and geriatric alerts. Special considerations must be made for pregnant and elderly patients when writing a prescription. Alerts will be triggered if a medication is selected and has a risk for these specific conditions.

Comprehensive drug information from Lexi-Comp.

Comprehensive managed care formularies from Medimedia. A formulary is a list of prescription drugs covered by a particular drug benefit plan.

Medicare Part D formularies. Medicare Part D beneficiaries is a federal program to subsidize the costs of prescription drugs for Medicare in the United States. Medicare Part D formularies will help your doctors prescribe efficiently for their Medicare patients.

Electronic pharmacy connections from Surescripts.

Managed care interface from RXHUB.

Speech Recognition for Narrative Dictation

For the physician who prefers to dictate patient notes, AltaPoint takes advantage of state-of-the-art technology that allows you to dictate notes directly into your patient records. The system converts your dictation into text as you speak. The more you dictate, the more the system “learns” your voice and vocabulary. You simply won't believe the power of this exciting technology.

**Requires Dragon Naturally Speaking – purchased separately.*

Patient Portal

AltaPoint Patient Portal* is strong a companion piece to your AltaPoint EHR, and an important part of being a meaningful user of Electronic Healthcare technology. AltaPoint's patient portal, zPatient.com allows you the option of providing patients instant access to their requested healthcare records, scheduled appointments, outstanding bills, lab results and more. Free up your staff from phone calls by providing online options for instant bill pay, prescription refill and appointment requests.

**monthly service fees apply*

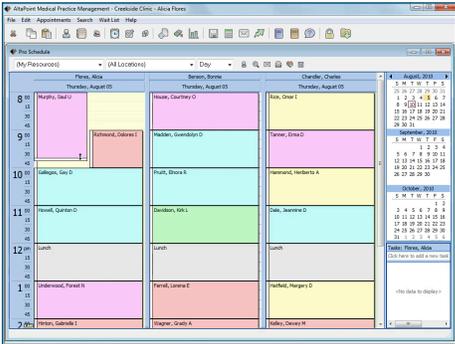

Practice Management Basics... and more!

Advanced Scheduling

Use AltaPoint to manage all of your appointments and tasks. Set pop-up alarms for important reminders. Manage all doctors' schedules in one screen with multi-location options. Set up recurring appointments for important dates including birthdays, anniversaries and patient follow-up care. Specify the visit type and reason for new appointments and use appointment templates to protect time blocks or to reserve

blocks for specific visit types. Drag and drop existing appointments to a different time, physician, or even day.

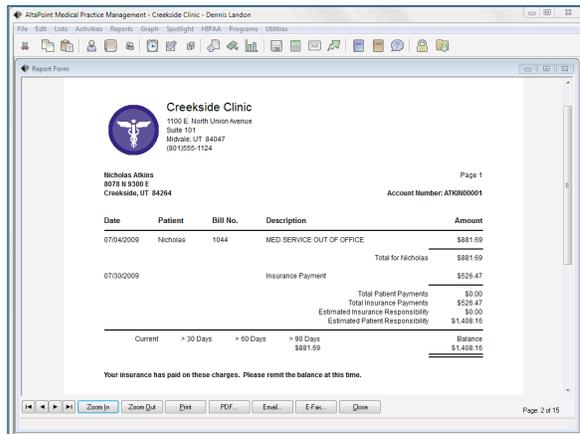

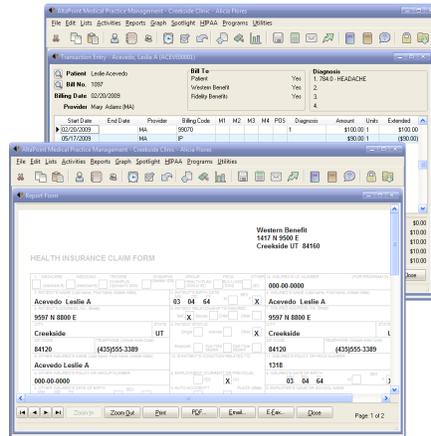

Appointment Wait Lists

Avoid lost revenue from cancelled or missed appointments by staying on top of your patient wait-list requests. View your wait list by time placed, provider, priority, and even procedure. A helpful icon will alert you regarding how many patients are waiting for a specific day, week or month depending on your schedule view.

Fast and Easy Billing

Save time and improve cash flow by validating important claim data BEFORE submitting to payors through our Insurance Claim Scrubbing with Pre-Insurance Reporting. AltaPoint works with a growing number of clearinghouses to maximize your electronic billing options. With a comprehensive collection management tool, customize collection letters and bill tracking. Save time and improve billing accuracy by building new bills using the procedures and diagnosis from a patient's previous visit. For maximum flexibility, there are now 20 custom claim fields as well as 5 local-use fields for billing detail.

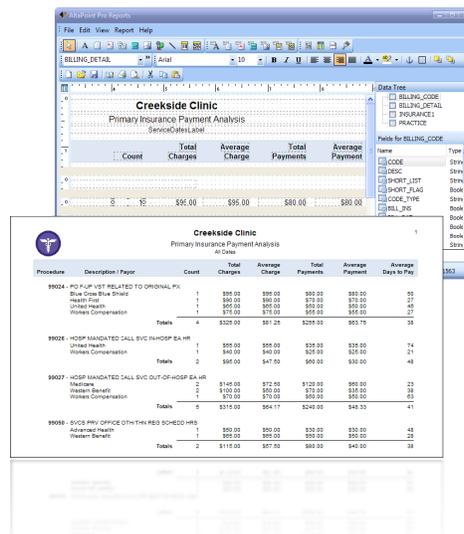

Custom Statements that You Design

Make your collections easier by using AltaPoint statements. Choose from several included statement formats or design your own with your favorite Windows fonts, styles and even your own practice logo. Patient statements can include a variety of information including aging of accounts, special and dunning messages, estimated insurance and patient responsibility of charges, upcoming appointments and reminders, follow-up instructions for specific patient procedures – and many other options.

- Billing
- Reporting
- Scheduling
- Inventory Management
- Multi-level password security
- Complete document and imaging management tool
- Referral authorization tracking
- E-mail statement functionality
- HIPAA document management tools
- Full support for practice NPI numbers, NDC codes, as well as other standards.
- Collection Module
- Medicare, HCFA, and UB04 claim support
- Finance charges and payment contracts
- Patient reminders
- Electronic Claims processing
- Custom letters, labels and postcards
- ... and MORE!

Management Reports

AltaPoint comes with a complete set of accounting and management reports. In addition to flexible reports that come built into the system, you can design an unlimited number of your own reports and forms. All reports support your favorite Windows fonts and can be previewed on the screen before printing. Filter information in reports using almost any piece of data recorded in the system. Position, size and stretch boxes by using the Shift and Arrow keys. Effortlessly move objects forward, backward, to the front, and to the back of the report layout. Jump to specific lines or search for fields and labels within the report detail.

Practice Spotlight

Know exactly where you stand. Instantly view vital practice statistics and accounting summaries from a single click. Select the desired statistics you want including: the number of patients seen that day, billable work performed, incoming revenue from co-pays and payments, and more!

Internet and E-mail Functionality

Email or E-Fax any report, form, or document. AltaPoint is leading the way with practice management by offering secure statements, reminders, notices and other communication via e-mail. Statements are sent via password protected PDF attachment to your patient's e-mail account. Reports of any kind may also be sent via e-mail.

AltaPoint Mobile

AltaPoint Mobile* is a program that runs on a smart phone giving you instant access to your medical records, schedule, patient notes, contacts, and other vital practice information. Work with live data from your iPhone or any Windows-mobile handheld device. Check your schedule, manage your task list, and access patient health records - all while you're on the go. Using a high-speed internet connection, AltaPoint Mobile connects directly to your office server. Information is displayed and updated instantly - without the need to synchronize your device later. The screens are specifically designed for your mobile phone, making easy to navigate, clear and easy to read.

**Handheld device sold separately.*

Local Support and Installation

We have over 200 resellers throughout the Continental U.S., Hawaii and Alaska. Chances are, there is a local reseller who can help you install and train on your new system. You can rely on your local reseller for value-added services and support.

AltaPoint 2011 Annual Codes

Save time and money by purchasing AltaPoint's Annual Code set.

Simply import the official AMA-distributed codes directly into your AltaPoint system. Eliminate the need of expensive code books, while saving your staff hours of data entry! At \$80 per user, our 2011 Annual Codes license will include the updated ICD-9, CPT and HCPC codes needed to stay up-to-date.

Contact your local Reseller today or AltaPoint directly for additional information at 888-258-2552.
